

## JOB DESCRIPTION

The Tulalip Tribes publicly announces that Native Preference to hiring shall apply to the Tulalip Tribal job opportunities

Job Title	Seasonal Fisheries Technician	Position Number	
Department	Natural Resources	Division	
Location	6406 Marine Drive	Travel Required:	Yes
Pay Grade/Rate		Position Type	Seasonal Contracted
Background Tier	Tier III	Classification	Non-Exempt
Skills Testing Required	No	Safety Sensitive	Yes
Supervisor	Field Biologist	Subordinate(s)	No

### JOB SUMMARY

The fisheries technician will be responsible for the assembly and operation of juvenile salmon traps on the Skykomish and Snoqualmie Rivers. These large rotary screw traps are suspended in the middle of the river and are accessed via skiffs with outboards. Technicians will be paired with a biologist that they are assisting with data collection and the operation of the traps. The position requires working weekends, night and/or day shifts that are 12-14 hours long. Personal vehicles are required for transportation to and from the work sites. Mileage for personal vehicle use is reimbursed at the current federal rate. The data collected during trapping will be used to quantify juvenile Chinook and Coho Salmon abundance in the Snohomish River basin. This is a seasonally recurring 5-6-month position that goes from February through the end of June.

### ESSENTIAL JOB DUTIES

1. Assembly and maintenance (e.g. cleaning, lubrication etc.) of two (2) rotary screw traps.
2. Assist in the collection and processing of biological samples.
3. Identification of juvenile salmon and other fish species.
4. Work as a team with others assigned to the project.
5. Winch large traps into position.
6. Ensure that safety procedures are adhered to during field sampling.
7. Operates personal vehicle to drive between various work sites.
8. Perform other duties as deemed necessary.
